Executive Summary

June 2026 was a highly productive month for PIVX community outreach and advocacy. Consistent, high-quality original content was delivered across multiple platforms — reinforcing PIVX's identity as a leading privacy-first cryptocurrency with growing real-world utility. Key highlights include physical representation at the ZanoAfrica Private Economy Conference, distribution of PIVX-branded merchandise, weekly recap contributions to the official PIVX X handle, and ongoing grassroots education through the PIVX African Tori audio series in Nigerian Pidgin English.

Content Themes & Strategic Focus

Privacy as Foundation	Every piece of content grounded in PIVX's core value: financial privacy as a right, not a feature. Messaging connected privacy to everyday relevance.
Real-World Utility	Highlighted practical tools — PIVCards for daily spending, PIVXAgentKit for AI-powered transactions — showing that PIVX is production-ready.
Technical Advancement	Built community anticipation for Core v6.0 by spotlighting the behind-the-scenes testing and fine-tuning phase ahead of public testnet.
Accessibility & Decentralisation	Framed the low masternode cost (~\$430) as a signal of an increasingly participatory and resilient network.
African Grassroots Outreach	Delivered weekly ecosystem updates in Nigerian Pidgin English via the PIVX African Tori series, reaching audiences underserved by English-only crypto content.
